This two session workshop is structured to help farm families develop a succession plan for their farm business. Attend and learn ways to increase family communication and strategies to successfully transfer management skills and the farm's business assets from one generation to the next. This workshop will challenge farm families to actively plan for the future of the farm business. There will be work and conversations that should take place between the two sessions that will help move the farm forward in the process of farm transition and succession. Farm families are encouraged to bring members from each generation to the workshop.
